

UCAAS POWERED BY MITEL

Open the door to business-transforming productivity and efficiency

A fully-managed Unified Communications as a Service (UCaaS) solution from Windstream Enterprise improves workplace productivity, enables employee mobility, and enriches the customer experience by seamlessly integrating with contact center applications.

Unite your employees with seamless communications solutions via any location or device

Boost your CX by enabling employees to be responsive and available anytime, anywhere

Provide the tools and mobile environment your tech-savvy employees require to succeed

Get agile, predictable UCaaS solutions when and where needed, freeing your IT resources

A streamlined approach to UC

Leverage Windstream Enterprise's long-standing relationship with Mitel—a Gartner-recognized industry leader in unified communications and contact center services—to deploy a solution that:

Unifies instant messaging, chat, presence, mobility and conferencing

Integrates with popular 3rd party CRMs and applications

Allows for customization via a single-tenant architecture

Serves mid-sized businesses with 250 to 5,000 users

Provides subscription-based, per seat pricing models

Delivers an in-office experience anytime, anywhere, on any device

Offers bring-your-own-network options*

Integrates with Mitel's advanced CCaaS applications, featuring multi-channel customer interactions without enterprise-level complexity or costs
